Did you know...

In the 2017-2018 deer season, we processed 3,980 whole carcasses and 169,566 lbs of additional boneless venison!
That is over 463,000 lbs of homemade venison products!

Shotgun season whole deer carcasses will be processed before boneless venison that is brought in. We will do our best to process the meat in the order it's received.

- Once the new deer seasons open in mid-September, we will no longer accept boneless deer from the previous seasons.
- We reserve the right to refuse any trim not properly handled. Treating your venison with care will yield a high quality product.
- When bringing in trim for sausage, no fat, hair, or bloody pieces are acceptable.
- We strongly discourage trim brought in that is **pre-ground**.
- Pork trim must be purchased from or processed by the Edgewood Locker.
- All processed deer must be picked up and paid for in full within *ten days* after you are notified that it is ready. Deer not picked up will be subject to a **storage fee**.
- When your order is completed we will notify you by telephone or email. It is extremely important to give your correct phone number, email address and mailing address on your deposit when the deer is dropped off.
- We prefer you bring in your whole carcass deer to us hide on...it does not save you any money by skinning it yourself.
- Please do not put your deer into garbage bags, as they are not intended for food use. We have food grade bags for sale, which can be used instead.

**The Edgewood Locker, Inc. is an officially licensed and state inspected locker.
We are also members of The Iowa Meat Processors Association and The American Association of Meat Processors.**
