***Denotes fully cooked item**

Specialty items are only available February through August. If the animal is slaughtered September through January, we can hold the trim if you would like a specialty item.

In order to simplify pricing for our customers, the price per pound is based on the raw weight of the product after the pork, cheese, etc. is added. All of the extra ingredients are included in that price.

To figure the total raw weight of your product, take the pounds of lamb or goat you have times the % of gain for that product. That is the number of pounds you will be billed for.

Items that denote fully cooked may lose weight when they are cooked. Your take home weight may be less than the total raw weight you are billed for.
